I know that brazil has the best surgeons mostly trained by Yvo Pitangy but could other countries such as India or Bolivia offer the same quality? My budget being limited, I want to get the cheapest one but don't want to be botched. I am concerned about the after care, the safety of the country, the ethic of the doctors and staff and, of course, the quality of the results. If anybody from the US had it done this way, please give me info about which country did you chose and show pics, that would help. Thanks to everyone.
